

EXPERIMENT 1

Car Booking Reservation System Using Zoho One (SaaS)

Aim

To create a Car Booking Reservation System using Zoho One as a cloud-based Software as a Service (SaaS) application.

Steps / Procedure

1. Log in to the Zoho One cloud platform.
2. Open Zoho Creator from the Zoho One application list.
3. Create a new application for the Car Booking Reservation System.
4. Create a form with the name Car Booking Reservation.
5. Add the necessary fields: From, To, Rental, Outstation, Package Type, and Hours/Days.
6. Select appropriate field types according to the information required.
7. Organize and format the form for convenient user interaction.
8. Save the form and publish the application.
9. Enter sample cab booking details into the created form.
10. Submit the details and confirm that the booking information is saved in the cloud.
11. Test the application using different booking details.
12. Confirm that the Car Booking Reservation System operates successfully as a SaaS application.
